

## Tips for Celebrating Communion at Home

**1. Prepare: gather up everything you need, and set it up.** (Set it up wherever you are watching the livestream).

A. Juice or wine, with cup(s). Pour it into the cup before the start of the service.

B. Bread or crackers, with a plate/dish. Put it on the plate before the start of the service. Feel free to use whatever kind of bread or crackers that you prefer. If you would like to use unleavened bread you may use Matzo bread from the store, which looks similar to saltine crackers. We frequently use this at Trinity Church on Sunday mornings.

**2. Put aside:** Anything that could be a distraction (technology, pets, food, etc.) Take a moment to think about your posture of worship (sitting up, standing up, kneeling, be reverent).

**3. Participate:** Remind your family and yourself that the Church is a group of people in community who love and trust Jesus. We don't have to be in a building to experience that.

**4. Pray:** Spend some time in prayer before the service starts. Use this time to prepare your heart, and to examine yourself (1 Cor. 11:27-29).
